The scene in court at the sentencing of Harper was quite touching. Harper deserved no sympathy. He was as deliberately and deliberately a thief as any housebreaker.

The great blow dealt the wool market was by the tariff of 1883. This law was enacted at the suggestion of a commission appointed by a republican president and consisting of a majority of republicans and protectionists. The committee received the testimony of the officers of the Wool Growers Association and intended to act sympathetically. The act ... a republican senate and was signed by a republican president. If this question is made a party question, therefore, there is likely to be considerable for the wool men to know their friends.

There is a ... famine in Kansas and the people are fearing a great deal of suffering. The Atchison and Topeka road has just announced that it can furnish no coal to its patrons along the line in Kansas. Judge Abbott, of the ... district court, says of this action:

"... like a ... act ... of their ... The fact is that in all ... ing all the towns ... Ford, all the coal ... south of ... for all ... county-five ... this ... for fuel. We have no ... We are ... of the ... If ... for the ... Atchison & Topeka can-... and ... We ... have developed our coal mines for ... of the population of the state ... demands."

Mr. John Wanamaker, the Philadelphia millionaire merchant, is probably the most extensive advertiser in the United States. ... department of his ... is in charge of Mr. Gillam, formerly one of the editors of the Philadelphia Record. He receives a salary of $10,000 a year for his ... Mr. Wanamaker recently spoke as follows about advertising:

"I ... I'm ... thing as a poster, or dodger, or handbill. My ... for fifteen years has been to buy space in a newspaper and fill it up with what I wanted. I would not give an ... advertisement in a newspaper of ... circulation for 5000 dodgers or posters. If I wanted to sell cheap jewelry or run a gambling scheme I might use ... bills, but I would not insult a decent ... public with handbills. The class of ... who read such things are poor material to look to for support in ... affairs. I deal directly with the ... publisher. I say to him, 'How long will you let me run a column of matter through your paper for $100 or $500?' as the case may be. I let him do the figuring, and if I think he is not trying to take ... more than his share, I give him the ... I lay ... to the profits on a particular line of goods for advertising purposes. The first year I had aside $3000, last year I laid aside and spent $30,000. I have done better this year, and shall ... that sum as the profits warrant it. I owe my success to the newspapers, and to them I shall freely give a certain profit of my yearly business."

Denver newspapers have for a long time been making a great boast about the ... wealth of Denver. It is quite interesting to look over the assessments of Denver with reference to these claims. The ... and credits are given at $634,000. Denver especially boasts on the amount of its exchange the large number of capitalists it has. Again, manufacturers' stock is given at $178,825, and merchandise at $2 678,260, yet it is claimed that Denver is a great manufacturing center, and also a center for wholesale business. The merchandise given would be a very small amount to carry for the retail trade of twenty-five thousand people. Much more is it a small amount for a city of eighty thousand inhabitants pretending to do the wholesale business for a million people in the Rocky mountain country. The society columns of the Denver papers are always interesting. From their social notes it would appear that there are many thousand ladies in Denver who never appear on any social occasion without "real" diamonds. Yet, the "gold, silver plate and jewelry" is assessed at only $19,065. The newspapers must be a good deal above the wealth and prosperity of Denver or else it has a large population of Ananiases and Sapphiras.

Many southern democrats from Virginia and Kentucky are quite determined that there shall be no modifications of the taxes unless whisky and tobacco are included in the list of articles on which taxes are reduced. Those who favor this reduction of the internal revenue tax are in the minority in the democratic party. Mr. Cleveland took his position squarely against such reduction, and undoubtedly represents the majority of his party. This presents two courses of action for the republican party. Mr. Blaine advises the tax to be taken off tobacco. If the republican members vote solidly in favor of this, and ... democrats vote in its favor ... secure its passage. Mr. Kelley advises that the tax be taken ... and ... should vote solidly with Mr. Kelley.

The Denver Republican shows a great lack of knowledge of recent politics in insisting that President Cleveland's message was a free trade document. Outside of ... unwise commentators regarding wool there is scarcely a recommendation that ... that cannot be found in the reports or published records of the treasury and speeches of republican presidents. The tariff commission cut off, appointed by President Arthur the majority of whose members were both republicans and protectionists, ... submitted in 1884. After very careful hearing of scientific facts and free trade, the commission ...

"... the ... of ... and ... that which is ... which ... a ... of ... which ... the ... of ... the ... principle under which the tariff should be reduced, almost the identical language used by President Cleveland is given in the following:

"... these views the commission has sought to give ... tariff duties in which substantial reductions should be distinguishable in ... The average reduction in rates, including that from the enlargement of the free list and the abolition of the duties on charges and compulsions, at which the commission has arrived, is not less on the average than 20 per cent., and it is the opinion of the commission that the reduction will reach 25 per cent." And again: "It has been the effort of the commission to make the reduction apply to commodities of unnecessary consumption and to maintain, or withhold the reduction upon ... of ... labor, and ... being consumed principally by the more wealthy ... could bear higher duties, at the same time supplying ... and ... the higher rate without being oppressive to their operation."

After the commission had finished its work it was thought that its recommendations if adopted would reduce our receipts at least forty five million, which would thus abolish the surplus. But there was an error of judgment. While the imports did not fall off on account of this change in the tariff, except in the case of wool, the revenue remained about the same. Four years ago Secretary Folger, ... on the report of this ... sion, and the effect of the legislation enacted in accordance with the report of this committee, said:

"... that ... of ... for the ... tax ... which was not a ... and is it now advisable to attempt a ... of the ... for the ...

He was trying to jump a car while in motion but missed his footing with the result stated above. He was removed to the St. Francis hospital, where his wounds were ... It was found necessary to amputate a portion of the foot, which operation was successfully accomplished.

The Emma Abbott opera company presented the Carnival of Venice to a large and delighted audience at the opera house last evening. Miss Abbott was in splendid voice and completely captured the audience. Her rendition of the "Lullaby" from Erminie between the second and third acts met with hearty recognition. So enthusiastic was the encore that Miss Abbott graciously responded with "Home Sweet Home," much to the delight of those present. The various soloists of the company acquitted themselves creditably, and some effective work was done by the chorus. Mr. Walter Allen divided the honors of the presentation with Miss Abbott. He is an excellent comedian and his work in the second act entitled *Jim* to the enthusiastic applause which he received. The orchestra under the leadership of Signor Tomasi rendered very effective service, in addition to the pleasure of the entertainment. The presentation, regarded from every standpoint, was a complete success.
